Overview

TCASE Services by Design is supported by TCASE, an organization that inspires and empowers special education professionals. We exist to give you the tools and resources to make your job easier. TCASE Services by Design is led by professionals who have served as special education leaders in small and large districts as well as SSAs and ESCs. We know what it is like to be in the trenches and to do the work that you do. We approach each district as a thought partner as you seek information to make critical decisions that impact systems, people, and programs.

We have provided program reviews to both large and small districts with very broad and limited scope. We also provide support for new directors, training for teachers, administrators, and special education providers through face to face or virtual options and budget and finance support for special education programs.

We hope to become your partner in Special Education.
