Overview

PCS has been providing an array of IT products and services such as networking, interactive technologies, security, and flat rate IT to businesses and schools since 1996. Time and experience have helped us develop best practices and procedures around a proactive philosophy designed to prevent issues before they arise. Your focus should be on running your school or business, not tech support or worrying about IT issues. That's where PCS can make your life easier. We're here to make your technology work for you, whether we're managing your entire IT infrastructure or just a piece of it.
