

# PORTFOLIO: MOBILE

## **CENTRALREACH**

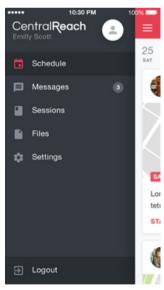

CentralReach is a US-based electronic health record (EHR) and practice management cloud software provider that offers a fully integrated online solution to help behavior analysts, speech therapists, occupational therapists and other therapy-based service providers care for people affected by autism, hearing loss, and other conditions.

#### CentralReach.com

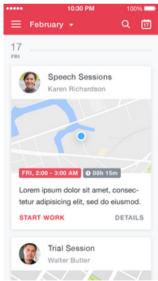

We delivered a full range of services. We consulted on mobile product strategy, analyzed the UX, created the UI and UX, and developed iOS and Android apps from scratch (using Xamarin).

## **APOSTOLI VIAE**

The Apostoli Viae Cenacle is a place where Apostoli Viae members can meet, chat, encourage one another, engage in formation, and discuss matters of importance.

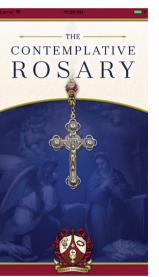

#### ApostoliViae.org

We defined and implemented their mobile product strategy, UX design, and developed iOS and Android apps from scratch (using React Native).

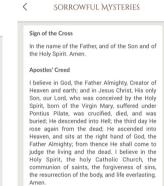

## **ZUTOBI LEARNING**

Getting your driver's license should be easy. That's why we have created an all-in-one app containing everything you need to ace the DMV Permit Test.
