

Comprehensive security assessments and solutions

Network security is a critical need for all businesses. The growing number and complexity of security threats require a highly skilled team of security professionals and advanced solutions that are seamlessly integrated to protect against cyberattacks. It's no longer a discussion of if a business is going to be attacked, but rather a question of where are my vulnerabilities that could be exploited when attacked; as well as, how to remove those cybersecurity weaknesses.

81%

of organizations affected by a successful cyberattack attack this year¹

69%

likelihood that your organization's network will be compromised by a successful cyberattack¹

Windstream Enterprise offers a full lifecycle of cybersecurity services, including:

Managed Network Security (MNS) and Distributed Denial-of-Service (DDoS) Mitigation Service provide a robust foundation to protect network resources and keep valuable information safe with comprehensive Unified Threat Management (UTM) and Security Information and Event Management (SIEM) solutions.

Professional Consulting Services complement Windstream Enterprise's core solutions, making customers fully aware of their vulnerabilities and help them to understand how to secure their network resources.

Managed Network Security

Protect your business from security threats with a fully managed solution with industry-leading firewalls, content filtering, application control, intrusion prevention, threat monitoring and log retentions.

DDoS Mitigation Service

Stop malicious DDoS attacks in their tracks with a mitigation service that monitors, detects, validates and mitigates an attack before an outage or related damage occurs.

Testing and Assessments

Provide extensive assessments for internal and external vulnerability and penetration testing, social engineering testing and web application testing.

Compliance

Ensure solution compliance with NIST, ISO, PCI and HIPAA gap assessments.

Incident Response

Deal with security breaches in real time with proactive and reactive incident response services.

Consulting and Virtual Chief Information Security Officer (VCISO)

Enable executive-level service for the development your security position from a leadership perspective.

Managed Services

Monitor and manage third-party security services with the assistance of our Cybersecurity Operations Center (CSOC).

Why Windstream Enterprise security solutions?

Identify your security vulnerabilities and compliance gaps

Safeguard your data by correcting vulnerabilities before they are points of entry for cyberattacks.

Fully manage your security

Benefit from a team of security experts dedicated to monitoring and managing your security services. The CSOC uses near real-time cybersecurity intelligence to identify threats and potential vulnerabilities, strengthening your line of defense.

Protect your customers and your brand reputation

Keep your network running at peak performance, while securing you and your customers' data, with enterprise-class security services.

Gain security expertise from Professional Services

Leverage a team of security consultants that assess your vulnerabilities and security readiness.

Cloud-enabled connectivity, communications and security—guaranteed.

Windstream Enterprise drives business transformation through the convergence of our proprietary software solutions and cloud-optimized network to unlock our clients' revenue and profitability potential. Our managed services streamline operations, enhance productivity and elevate the experience of our clients and their end users while securing their critical data and brand reputation. Analysts certify Windstream Enterprise as a market leader for our product innovation, and clients rely on our unrivaled service guarantees and best-in-class management portal. Businesses trust Windstream Enterprise as their single-source for a high-performance network and award-winning suite of connectivity, collaboration and security solutions—delivered by a team of technology experts whose success is directly tied to our clients' complete satisfaction.
