

Breezy Stationary Fogger™ Specifications

The Breezy Stationary Fogger™ is a cost-effective, self-contained disinfection system that makes regular disinfection a breeze. Its remote high-efficacy chemical fogging system provides thorough disinfection while keeping people out of harm's way.

The Breezy Stationary Fogger™ will remotely disinfect rooms very quickly and very thoroughly. Compatible with Breezy Biocare™ disinfectant, the Smart Fogger has been proven to ELIMINATE UP TO 99.9999% OF PATHOGENS without exposing people to irritating fog or contaminated surfaces.

The Breezy Stationary Fogger™ is perfect for disinfecting hospital rooms between patients, conference rooms between meetings, hotel rooms during daily housekeeping, classrooms between classes, and many other similar applications.

Item	Specification
Disinfection time	30 seconds fogging (typical 500 sq. ft. room)
Settling time	10 minutes dwell time for high-efficacy disinfection
Tank capacity	3 gallons (150 typical rooms or 75,000 sq. ft.)
Compatible chemical	Breezy Biocare™ (hydrogen peroxide-based, high-efficacy)
Remote control	Fob for on/off control
Easy filling	Leak-proof, vented cap
Rugged	UV stabilized, rust and corrosion resistant, crush resistant
Portable	Handles for carrying or cart transport, integrated power cord hanger
Weight	13 lbs. when empty, 38 lbs. when full
AC Power	Universal 110-240VAC, 50-60Hz
