### Overview

*The quality of the Berliner ropes has gained a world wide reputation. The first net structures developed for climbing equipment were created in the early 70's. Now, with over 48 years of experience in the playground equipment industry, combined with our extensive rope manufacturing knowledge we have designed a variety of products for unique playground landscapes which comply with international safety standards. Our playground landscapes are instantly recognizable, due to the combination of extensive rope design development and creative ideas. Our playgrounds are made for generations – built to last for decades to bring movement not just to our kids, but to their kids also; therefore addressing sustainability in the interests of future generations. At Berliner Seilfabrik, we don't just think green, we work green. All of our products meet and exceed the regulations for lead in paint, lead in substrate and phosphates to protect both: our kids and the environment. Visit us at [www.berliner-playequipment.com](http://www.berliner-playequipment.com) and discover what Play Equipment for Life means.*
