Most of our members receive Federal Government grants and they make up a significant portion of their budgets. The members need to know if your company is willing to sell to them when they spend federal budget funds on their purchase. There are attributes that follow that are provisions from the federal regulations in 2 CFR part 200. Environment

Really Good Stuff™ started its major green initiative in February 2008 by installing energy-efficient fluorescent lighting in the company's 80,000 square foot distribution center in Monroe, CT. From there, we installed solar panels that currently generate close to 30% of our electric power.

We have also installed large moving fans throughout our distribution center. The blades are 12 – 24 feet in size and efficiently circulate the cool air in the summer and the warm air in the winter. This translates into a more comfortable and energy efficient working environment.

Protecting our forests

Really Good Stuff is reducing the size of their environmental footprint by purchasing from many print manufacturers that obtain tree fiber from sustainable sources. These sources are either certified by the Forest Stewardship Council (FSC) or Sustainable Forestry Initiative (SFI). Look for the FSC or SFI logo on the print products that you purchase from us and know that together we are all doing our part to help sustain the environment!
