### **Overview**

*Keystone Ridge Designs is a leading designer and American manufacturer of commercial-grade site furnishings. For over 25 years, we have been transforming public spaces with our unique collection of powder coated steel benches, litter receptacles, bike racks, table sets, chairs, bollards, planters, leaning rails, children's furniture and other site amenities. From classic designs to modern site furniture solutions, our high-quality outdoor furnishings add the perfect finishing touch to parks, shopping centers, city streetscapes, campuses and landscapes nationwide.*

*Our products are distinctive not only in design, but also in their quality, durability, and aesthetic appeal. We manufacture our products at our headquarter facilities in Butler, Pennsylvania with fully-welded steel construction and finished with an industry-leading Keyshield™ powder coat finish. This powder coat finish offers unparalleled corrosion resistance and a protective armor against daily abuse and harsh outdoor elements, and is also available with a silver-ion antimicrobial coating for additional public health, safety and cleanliness.*

*We are a company guided by core values of how to do business, how to treat people, and how to make great products. Our mission is simple – to deliver excellence in all that we do.*
