Overview

Thatch Engineering is a General Contracting business specializing in building exterior consulting, and MEP related to all building services. We leverage our expansive knowledge and experience using a forensic approach, uncovering root causes for problems and provide realistic and practical solutions. We have a history of assisting various clients including Lockheed Martin Aeronautics, Department of Defense, Joint Reserve Base Fort Worth, GSA, City of Grand Prairie, other municipalities, universities, building owners, developers and designers.

OUR PROFESSIONAL TEAM

Thatch has hand-picked a team of the top consultants of each trade within the North Texas area able to solve any roofing concerns and challenges of our clients. With over 50 years of experience, our professionals have worked with the following clients: Lockheed Martin Aeronautics, Department of Defense, General Services Administration (GSA), Veteran's Administration, Texas Military Department, City of Irving, City of Grand Prairie, City of Colleyville and Parker County.

ROOF CONSULTING

Thatch Engineering Roof Consultants is dedicated to proactively designing for durability and environmental concerns, as well as extending the life and value of your building assets. Our building envelope experts are also experienced forensic and construction defect investigators, so we know the costly mistakes to avoid.

We understand how the different systems of a structure interact with one another, including roofing, façade, below-grade waterproofing, and structural systems. We solve problems on existing buildings, and we apply our experience to new construction to ensure the building envelope is the best it can be.
