Overview

Since its inception in 2006, Child1st has emerged as the leader in providing multisensory resources that parents and teachers can utilize without needing special training. Our products are researched-based and target multiple regions of the brain at the same time for a whole-brain learning experience. This means you can teach all children in their own learning language at one time. By their very design, Child1st resources meet the needs of children without the instructor needing to prepare lessons for different types of learners.
