Overview

ProLogic ITS is an experienced full lifecycle service provider of hardware and software solutions, professional services, and asset recovery services. For nearly 11 years, the team at ProLogic ITS, LLC ("ProLogic ITS") has centralized all the elements our customers need and expect from a trusted source for IT products, services, and overall solutions. Our turn-key business model meets the specific needs of our customers while providing cost-effective solutions designed to provide excellent performance with a lower overall cost of ownership. Project Managers are assigned to every project. While each project is customized to fit our clients' needs, the Project Management team is ultimately responsible for planning, identifying risk, managing issues, following change management procedures, measuring, reporting, quality assurance, and monitoring the budget. We have dedicated resources specializing in Vehicle Up-Fitting, In-Car Installations, Rugged Mobility, and Audio-Visual Products. Our installers are background checked, drug tested and will clear a Level 3 CJIS Test when needed.
