Overview

Since 1940, Wendel has grown into a full-service architecture, engineering, energy efficiency, and construction management firm. Wendel Energy Services has the internal staff and expertise to provide energy and water efficiency services as trusted advisors for a variety of clients in the municipal, education, healthcare, and transportation markets. Wendel is vendor-neutral, ensuring that clients get the most appropriate, objective, and cost-effective solution for their projects. Our projects are led by licensed and certified professionals with an ethical obligation to our clients and the public. In addition, Wendel offers a full array of energy master planning, engineering, commissioning, and project and construction management services to assist our clients in achieving their energy efficiency and carbon reduction goals. Our in-house capabilities allow us to effectively identify “deep” energy retrofits that exceed performance goals. We are committed to being good stewards of our environment through our sustainability efforts. Our corporate mission is to “create a better world through knowledge and leadership.”
