Overview

Hazel was founded to eliminate barriers to healthcare for our most underserved families. We provide access to quality healthcare for TK-12 students through telehealth services provided in school and at home. Hazel offers whole child care, addressing both physical and mental health concerns including screening, assessment, short and long-term support via our staff therapists and ongoing case management. Across the US we are helping students move off of long mental health wait lists and into proper care and support.

Main value props:

Connect all students to licensed medical professionals using telehealth - available at school and from home

Add staff capacity

Decrease chronic absenteeism

Positivity impact SDoH so all children can thrive
