Overview

Separation Systems Consultants, Inc. (SSCI) is a multi-disciplinary environmental consulting, construction and field remediation firm with diverse capabilities and experience. SSCI regularly provides environmental review, Environmental Site Assessments, environmental remediation services, project management, and general project management to government agencies and the private sector. SSCI is a certified Woman-Owned and Disadvantaged Business Enterprise (W/DBE), Historically Underutilized Business (HUB), and Small Business Enterprise (SBE) that has had a local presence in southeast Texas for over 35 years. SSCI's approach to problem solving consists of responding rapidly with a creative and effective solution designed to specifically meet clients' needs. Maintaining this basic philosophy has been the key to SSCI's successful relationships and has assured that clients consistently receive cost-effective, environmentally-sound solutions to today's ever-changing environmental challenges. SSCI's team consists of fourteen (14) full time environmental scientists, safety inspectors, engineers, design coordinators, and technicians available upon request for specific projects. This group of team members provide the capabilities necessary to meet the design and demands of today's environment.
