Overview

EdWire, Inc. was founded in 2015 with one goal in mind - to help school districts aggregate all their data. The Ed-Fi Alliance selected EdWire as their Partner-of-the-Year in 2021, reinforcing their commitment and expertise in the field of interoperability.

EdWire's flagship product, EdGraph, is a Platform-as-a-Service that aggregates data from a variety of disparate systems within a learning organization. With all district data in one place, this allows for comprehensive and custom analytics, validation/governance, and more.
