#### Overview

Emeco started in 1944, founded on the principle "Begin with what's left over. Turn it into what will last." We took salvaged aluminum and made chairs for the US Navy. A war-time necessity. That became an ongoing direction. Today it's scrap plastic. We keep it out of oceans and landfills and instead turn it into furniture that lasts. A planet necessity.

Chairs, stools or tables for tough commercial environments, indoors or outdoors? Not a problem. Our first chair, the 1006 Navy chair, was built in 1944 in Hanover, PA, to withstand torpedo blasts. We've been making resilient and reliable furniture ever since. All using sustainable materials. All made in the USA. Using only the healthiest, non-toxic ingredients, we engineer our furniture to stand the test of time.
