Overview

Zoobean is a software as a service company with our main product Beanstack. Beanstack uses community-wide reading challenges and proven gamification principles to motivate students to read and grow your school district's reading culture. Additionally, you can run fundraisers support by Beanstack. The subscription itself is broken down into a three tier system (essential, plus, and premium). Each tier provides a different level of product features as well as product support. Our team can help assist on finding the right reading program to support any size school or even district.
