### **Overview**

*Student improvement & teacher development through highly customized educational consulting, school turnaround programs, academic leadership programs, professional development services for academic leaders, curriculum development, educational needs assessments, and more.*

*Educational Directions specializes in customized academic improvement programs and strategies geared toward enhancing student performance, boosting leadership capabilities of school faculty and staff, and positively impacting the culture and outcomes of K-12 schools.*

*We work with state, district, and school leaders to develop impact strategies that focus on three core change agents — teacher efficiency, student performance, and school culture. Each track can then be aligned to specific grade levels, state standards, subject matters, and school needs — and further broken into teacher and student learning programs.*
