Overview

Document Logistix creates document management solutions that help to eliminate the use of paper, improve records management and automate business processes.

We provide our uniquely affordable and scalable document management software (Document Manager) to an ever expanding range of SME and blue chip clients around the globe.

Document Manager provides a flexible platform for completely paperless business processes and highly efficient archiving. Our software powers the operations of some of the world's most demanding, high document volume businesses including major logistics companies like DHL and CEVA.

At Document Logistix we pride ourselves on a commitment to providing simply the best DM software available, at the best price. Document Logistix's affordable and scalable document management and archiving software enables businesses to manage their internal paperwork and workflows more effectively, to cut their dependence on printers, to accelerate invoice approval processes and to reduce their carbon footprint. All of this ensures a rapid ROI on their investment in DM software.

Our fully electronic document management (EDM) solutions also incorporate a range of specialist DM software modules that enable bulk document scanning for archiving, thin client web DM system access and streamlined invoice and purchase order processing.
