### **Overview**

*Avant Assessment is dedicated to developing and delivering language proficiency solutions that improve the teaching and learning of languages. Education programs in primary and secondary schools, universities, businesses, government organizations, and individuals around the world use Avant's assessments to award competency-based credits and credentials such as Seals of Biliteracy, analyze testing data to improve instructional outcomes and identify areas for professional development to improve proficiency outcomes. Avant MORE Learning, their professional learning division, complements their assessments by providing training that supports programs that are striving to improve proficiency outcomes. The Avant team has deep experience in working with world language and DLI programs from around the world and is able to share learning and experiences with program leaders via menu-based and customized professional learning events. For more than 20 years, Avant has delivered STAMP (STAndards-based Measurement of Proficiency), the world's first online adaptive four-skill (Reading, Writing, Listening, and Speaking) language proficiency assessment, originally developed at the University of Oregon. Avant's solutions are about real-world proficiency development, pairing innovative technologies with human expertise. For more information visit [avantassessment.com](http://avantassessment.com).*
