Overview

KickUp provides a comprehensive hub for educator learning and growth, allowing school districts to manage all forms of professional learning, assess program and individual performance, and understand how investments in professional learning are driving meaningful change in the classroom. The platform consists of three complementary solutions: Foundations, Learning, and Growth. Data from each solution can be combined into centralized reports which allow districts to triangulate data to gain meaningful insights to drive system-wide improvement. Customer Success is core to KickUp's approach to partnership. Every KickUp partner is paired with a Client Success Manager who drives implementation planning, configuration, and system adoption for the organizational partner.
