***Continuous Contract:** Any existing written agreement (including any renewals that are exercised) between a prime contractor and a HUB vendor, where the HUB vendor provides the prime contractor with goods or service under the same contract for a specified period of time. The frequency the HUB vendor is utilized or paid during the term of the contract is not relevant to whether the contract is considered continuous. Two or more contracts that run concurrently or overlap one another for different periods of time are considered by CPA to be individual contracts rather than renewals or extensions to the original contract. In such situations the prime contractor and HUB vendor are entering (have entered) into "new" contracts.

HUB Subcontracting Plan (HSP)

In accordance with Texas Gov't Code §2161.252, the contracting agency has determined that subcontracting opportunities are probable under this contract. Therefore, all respondents, including State of Texas certified Historically Underutilized Businesses (HUBs) must complete and submit this State of Texas HUB Subcontracting Plan (HSP) with their response to the bid requisition (solicitation).

NOTE: Responses that do not include a completed HSP shall be rejected pursuant to Texas Gov't Code §2161.252(b).

The HUB Program promotes equal business opportunities for economically disadvantaged persons to contract with the State of Texas in accordance with the goals specified in the 2009 State of Texas Disparity Study. The statewide HUB goals defined in 34 Texas Administrative Code (TAC) §20.13 are:

- **11.2 percent for heavy construction other than building contracts,**
- **21.1 percent for all building construction, including general contractors and operative builders' contracts,**
- **32.9 percent for all special trade construction contracts,**
- **23.7 percent for professional services contracts,**
- **26.0 percent for all other services contracts, and**
- **21.1 percent for commodities contracts.**

- - Agency Special Instructions/Additional Requirements - -

In accordance with 34 TAC §20.14(d)(1)(D)(iii), a respondent (prime contractor) may demonstrate good faith effort to utilize Texas certified HUBs for its subcontracting opportunities if the total value of the respondent's subcontracts with Texas certified HUBs meets or exceeds the statewide HUB goal or the agency specific HUB goal, whichever is higher. When a respondent uses this method to demonstrate good faith effort, the respondent must identify the HUBs with which it will subcontract. If using existing contracts with Texas certified HUBs to satisfy this requirement, only contracts that have been in place for five years or less shall qualify for meeting the HUB goal. This limitation is designed to encourage vendor rotation as recommended by the 2009 Texas Disparity Study.

SECTION-4: AFFIRMATION

As evidenced by my signature below, I affirm that I am an authorized representative of the respondent listed in SECTION 1, and that the information and supporting documentation submitted with the HSP is true and correct. Respondent understands and agrees that, if awarded any portion of the requisition:

- The respondent will provide notice as soon as practical to all the subcontractors (HUBs and Non-HUBs) of their selection as a subcontractor for the awarded contract. The notice must specify at a minimum the contracting agency's name and its point of contact for the contract, the contract award number, the subcontracting opportunity they (the subcontractor) will perform, the approximate dollar value of the subcontracting opportunity and the expected percentage of the total contract that the subcontracting opportunity represents. A copy of the notice required by this section must also be provided to the contracting agency's point of contact for the contract no later than ten (10) working days after the contract is awarded.
- The respondent must submit monthly compliance reports (Prime Contractor Progress Assessment Report – PAR) to the contracting agency, verifying its compliance with the HSP, including the use of and expenditures made to its subcontractors (HUBs and Non-HUBs). (The PAR is available at <http://www.window.state.tx.us/procurement/prog/hub/hub-forms/progressassessmentrpt.xls>).
- The respondent must seek approval from the contracting agency prior to making any modifications to its HSP, including the hiring of additional or different subcontractors and the termination of a subcontractor the respondent identified in its HSP. If the HSP is modified without the contracting agency's prior approval, respondent may be subject to any and all enforcement remedies available under the contract or otherwise available by law, up to and including debarment from all state contracting.
- The respondent must, upon request, allow the contracting agency to perform on-site reviews of the company's headquarters and/or work-site where services are being performed and must provide documentation regarding staffing and other resources.

PERMA-BOUND SPECIFICATIONS

These specifications apply to the binding of Pre-Bound Books in a hard cover binding, and the binding itself should be unconditionally guaranteed against faulty materials of workmanship of any kind.

- A. Original Publisher's adhesive will be completely removed from the spine of the volume. Removal will be clean, without fraying, tearing, or mutilation of the parts, pages or contents of volume.
- B. Double fan adhesive binding shall be used. No drilling or stapling will be permitted. Durable easy opening should result, allowing the volume, when open, to lie flat, without stress or tightness of any kind.
- C. Adhesives shall be high grade internally plasticized co-polymer acetates of an emulsion type that meet AH-30 performance standards. Adhesive application is made to outer spine edge, as well as inner edge on both front and back of page by double fanning process. Run-in of adhesive not to exceed .0625 of an inch. Adhesive should be evenly and uniformly distributed.

Polyurethane reactive hot melts form an instant bond by the loss of heat which later crosslinks into a urethane material with better heat and water resistance. Conventional hot melts not permitted.

- D. Trimming should not be in excess of 0.125 of an inch on spine, top, bottom or fore edge of volume.
- E. Covers shall be laminated with a clear polyester film, thickness should be rated at, excluding the adhesive, not less than .001 of an inch in thickness and be free from blemishes or distortions of any kind.
- F. Children's books, 3/8 inch or less in thickness, should be equal to the Styleline Binding Specifications of Perma-Bound books. Styleline Binding is a Perma-Bound exclusive and patented process.

Endsheets have 2 1/4 inch wide reinforcing cloth extension, with a second leaf attached to the extension along the binding edge.

The inlay will be made from flexible paperboard with the grain running parallel to the spine of the case. The inlay will be cut to the length of the volume and the full width of the spine board separation. This will be securely fastened in place in making the case. The case, before casing in, will be formed in such a way as to score the inlay, providing flexibility and openability. The book is then cased so that book hinge and spine are bonded to the cover in both the hinge and full width at the spine joint. In this manner, the joint and the hinge are fully locked in the wrap-around to the spine of the book, eliminating any buckling, space separations or gapping.

- G. Cover base paper turn in on case boards should be at least .006 of an inch in thickness without lamination. Turn in should not be less than .500 of an inch.
- H. Binders board should be Davey or equal cover board with thickness of not less than .060 of an inch. Board shall be in conformance with Commercial Standards CS-50-34.
- I. Back lining on spine should be full length of backbone. Back lining shall consist of stretch fabric (minimum .018 of an inch in thickness).

- J. All end papers shall be fabricated into a unit with the grain of the paper running parallel to the spine of the book and consisting of at least one free endleaf.
- K. Volumes shall be cased in with a glycol paste of polyvinyl resin - processed through a building-in machine - with sufficient pressure to insure good adhesion of the end papers and proper adhesion in the joints.
- L. All cases will have an inlay of flexible paper, with the grain running lengthwise of the inlay, securely attached to the inside of the backbone of the cover.
- M. All volumes are to be rounded and backed.
- N. All work is to be processed in binder's own plant and facilities.
- O. Quality Control Station should be set up at each operation, the end result should be an unconditional guarantee.
- P. Adequate inventories of all titles will be carried to assure 90% or better fulfillment and prompt deliveries of all orders.
- Q. The plant and facilities should be open for inspection.
- R. Shipment must be made within 30 days of receipt of order.

Meet Do-Not-Exceed Dollar Amounts

Do you have a DNE that your order doesn't quite reach? We'll simply issue a Voucher for the remaining balance for you to use on a future purchase of Perma-Bound products.

How Do I Order Vouchers?

Vouchers are available in \$1.00 increments, so you can purchase whatever fits your budget requirements. Vouchers can be used for books and Renaissance Learning products. They can be ordered online, over the phone, or from your local sales representative.

What's The Next Step?

Once you place your Voucher order for a specific dollar amount, Perma-Bound will issue you a Voucher Certificate indicating the dollar amount purchased. This Voucher Certificate will be mailed to you with your invoice.

How Do I Use My Voucher?

Each Voucher Certificate has its own identification number associated with your specific order so that we can manage your credits on file. Simply send us any list of titles you'd like to purchase and we'll deduct the sum of your selected titles from your credit on file. Should your purchase exceed your voucher amount, a second invoice will be sent to you.
