**\*Continuous Contract:** Any existing written agreement (including any renewals that are exercised) between a prime contractor and a HUB vendor, where the HUB vendor provides the prime contractor with goods or service under the same contract for a specified period of time. The frequency the HUB vendor is utilized or paid during the term of the contract is not relevant to whether the contract is considered continuous. Two or more contracts that run concurrently or overlap one another for different periods of time are considered by CPA to be individual contracts rather than renewals or extensions to the original contract. In such situations the prime contractor and HUB vendor are entering (have entered) into "new" contracts.

# HUB Subcontracting Plan (HSP)

In accordance with Texas Gov't Code §2161.252, the contracting agency has determined that subcontracting opportunities are probable under this contract. Therefore, all respondents, including State of Texas certified Historically Underutilized Businesses (HUBs) must complete and submit this State of Texas HUB Subcontracting Plan (HSP) with their response to the bid requisition (solicitation).

**NOTE: Responses that do not include a completed HSP shall be rejected pursuant to Texas Gov't Code §2161.252(b).**

The HUB Program promotes equal business opportunities for economically disadvantaged persons to contract with the State of Texas in accordance with the goals specified in the 2009 State of Texas Disparity Study. The statewide HUB goals defined in 34 Texas Administrative Code (TAC) §20.13 are:

- **11.2 percent for heavy construction other than building contracts,**
- **21.1 percent for all building construction, including general contractors and operative builders' contracts,**
- **32.9 percent for all special trade construction contracts,**
- **23.7 percent for professional services contracts,**
- **26.0 percent for all other services contracts, and**
- **21.1 percent for commodities contracts.**

**- - Agency Special Instructions/Additional Requirements - -**

In accordance with 34 TAC §20.14(d)(1)(D)(iii), a respondent (prime contractor) may demonstrate good faith effort to utilize Texas certified HUBs for its subcontracting opportunities if the total value of the respondent's subcontracts with Texas certified HUBs meets or exceeds the statewide HUB goal or the agency specific HUB goal, whichever is higher. When a respondent uses this method to demonstrate good faith effort, the respondent must identify the HUBs with which it will subcontract. If using existing contracts with Texas certified HUBs to satisfy this requirement, only contracts that have been in place for five years or less shall qualify for meeting the HUB goal. This limitation is designed to encourage vendor rotation as recommended by the 2009 Texas Disparity Study.

# Consumer Product Safety Improvement Act

## Section 108: Products Containing Certain Phthalates

# Custom Sportswear only uses “Phthalate Free Inks”

### Why should this be important to you?

Phthalates (pronounced “fal-late”) are commonly used in the textile printing inks to add elasticity. This prevents the **imprint** from cracking and peeling. Unfortunately phthalates are a toxic additive that is considered dangerous to children.

The Consumer Product Safety Commission has banned phthalates from use in many children’s products. Most vendors use inks containing dangerous phthalates as they cost much less than phthalate free inks. The laws are somewhat vague regarding phthalate ink use, so most printers simply ignore them. Custom Sportswear uses a reformulated ink that provides the same qualities of elasticity without this toxic additive.

At Custom Sportswear, your children’s welfare is much more important than the savings we would incur by using traditional inks. Our company calls only on Elementary and Middle schools and the protection of your children is our primary concern. When considering Spiritwear Companies to work with, the question of phthalate free inks is definitely an important issue to address. You should always ask prospective vendors if the inks they use contain phthalates.

Since most vendors out source their printing, they are totally unaware of what types of inks are being used. Most vendors don’t even know what phthalates are and the potential danger they present to your children.
