DESIGN PHILOSOPHY

Teo solutions are designed to be extremely powerful yet highly intuitive. Many technology companies claim to do the same, however, they typically fall short. We invite you to view a demo so we can show you just how far ahead of the competition we are. In fact, we may not only be the best user experience (UX) in Unified Communications, we are most likely the best UX in enterprise software, period. It is a bold claim to be sure, but delivering on bold claims is what we do.

REVOLUTIONARY ARCHITECTURE

Teo System Architecture is the most resilient ever created. Each Teo UC node provides the full UC suite of capabilities. There is no need for external interfaces or gateways, mobility servers, voicemail servers, etc. Each Teo UC node can support 1 – 2,500 users. Multiple nodes can be clustered to create larger and more resilient systems allowing for rapid scaling while also adding multiple layers of redundancy. Each node in the cluster is in constant sync with all other nodes and devices so they can immediately handle system activity in case any other node suffers a network or power interruption.

COMPREHENSIVE SOLUTIONS

Teo designs, builds, and supports all of the components of our solution so you can have total peace of mind. This enables us to deliver the finest technology ownership experience in the industry. Systems can be configured in minutes, and changes across an enterprise can be handled in seconds.
