Powerful time and attendance management tools are at the ready whenever or wherever employees, supervisors, or managers need to track and manage the workforce.

The calendar dashboard summarizes labor activity and highlights issues that must be addressed.

Automate and Save

The Attendance on Demand parameter engine automatically handles even the most complex HR and pay policies.

- Automate employee pay rates and rate changes mandated by complex labor contracts.
- Maintain unassailable wage and hour records.
- Ensure compliance with labor regulations such as FMLA and FLSA.
- Resolve absences or exceptions when proper documentation later supports categorizing these instances as FMLA-eligible leave.
- Generate reporting for wage and hour claims, wrongful termination litigation, and other legal inquiries.

Parameter settings reflect your pay guidelines, attendance policies, and benefit policies. Your pay rules can include overtime, lunch and break periods, rounding, flex time, holiday pay, shift differentials, special premiums, call back pay, and so on. Best of all, parameter settings are easily changed whenever company policies or labor contracts change.

Control Overtime and Stay Within Budget

Attendance on Demand tracks labor activities through intuitive labor summaries, time cards, employee historical calendars, time card archives, and flexible employee or group scheduling.

- Track departmental transfers to support the borrowing and lending of employees.
- Analyze actual vs. scheduled labor costs and actual vs. budgeted labor costs.
- Easily see departmental labor breakdowns, labor hours and dollars by pay designation, and more.

Schedule Employees Efficiently

Attendance on Demand lets you view, create and change schedules for single employees and for groups of employees by the day, week, month or customized time period.

Create ongoing, repeating schedule patterns for employees who regularly work the same hours. Schedule an employee once, and never worry about it again.

When an employee is assigned a schedule, Attendance on Demand automatically compares it to worked hours, identifying employees who are tardy, leave early, take long lunch hours or are absent.

The Payroll Monitor shows which supervisors have open issues to resolve before payroll can be processed.

Unresolved absences can be re-categorized when proper documentation is submitted. Even after the pay period has closed.

Improve Management and Employee Communication

Attendance on Demand helps managers and employees communicate efficiently by using Employee Messaging. Communication can be initiated by either the manager or the employee using a private message board. This is useful for getting timely messages to an employee about extra shifts available or extending hours, for example. Employees can use it to communicate their availability for more hours or information about circumstances surrounding an absence or tardiness. Improved communication means better workforce relations.

Integrate Seamlessly With HR and Payroll

Attendance on Demand easily integrates with your existing payroll, human resources, and other key office systems. You can fully leverage your investment by sourcing employee information from your existing HR system and seamlessly transferring it to payroll — whether your payroll is done in-house or by a payroll company.

Collect Time and Attendance Data Your Way

Select from a broad range of time clocks for collecting time and attendance and other important employee data. Our time clock options fit your unique work environment, and reduce the time and costs of data collection. Choose the method that works for your company and your employees:

- Biometric Hand Readers
- Biometric Finger Readers
- PIN Time Clocks
- Proximity Readers
- Barcode Readers
- Magnetic Stripe Readers
- Employee Online Time Sheets

Easy Access, Easy Maintenance

Attendance on Demand is installed centrally on your servers. Web servers provide access for managers and employees through your intranet or over the internet. You need only a web browser to access Attendance on Demand from any location. Supported browsers include Internet Explorer, Safari, Firefox, Chrome, and Opera. Employees access Employee Self Service through a web browser, too. You can authorize or prohibit IP addresses, controlling access from unauthorized locations.

Optional Modules

Attendance on Demand delivers critical information through core time and attendance features. Optional modules provide advanced labor management capabilities including:

- Employee Self Service
- Leave Management

- Incidents & Points
- Benefit Accruals
- Custom Report Writer
- Coverage Budgets

Optional Modules

Attendance on Demand offers optional modules that provide you with advanced features for managing your workforce.

Employee Self Service and Kiosk

Employee Self Service provides an online timesheet that empowers employees while reducing workload for HR.

Employees gain convenient access to their attendance information. They can punch or enter hours worked; transfer to different departments; access their schedule, benefit, and archived time card information; and request time off. You can choose from four time entry sheets so your employees capture and report time in a familiar way.

Employee Self Service kiosks are typically located in common areas, such as lunch rooms. Security is provided by individual PINs that allow employees access to their own information.

Leave Management

Leave Management automates employee requests for time away from work and makes it easy for supervisors to approve leave based on organization policies.

Employees request leave through Employee Self Service. They can review their benefit (paid time off) balances and check team schedules when deciding to request leave. When the request is made, supervisors are notified through a dashboard or email so they can review requests in a timely manner.

The system automatically evaluates each request against balances of the requested benefit and other outstanding leave requests. It also shows you the impact on scheduled labor, helping supervisors make better leave management decisions.

Attendance on Demand is a web-hosted time and attendance system with full capabilities for labor management, scheduling, timekeeping, accruals, incidents, budgets, and more.

Benefit Accruals automate and track employee benefit accumulation and usage.

Incidents & Points

The Incidents & Points module measures employee attendance activity against corporate attendance policies and automates enforcement.

- Enforce employee attendance policies fairly, impartially, and consistently.
- Automatically flag exceptions to scheduled attendance, such as tardiness and absenteeism, and generate associated point values that show on the employee's time card.
- Edit point balances directly from the time card.
- Generate employee notification and warning letters automatically.

Coverage Budgets

The Coverage Budgets module helps you schedule efficiently and analyze your labor costs. Budgets set targets for worked time or paid time off for a group of employees. Attendance on Demand compares your labor budget to employee schedules, as well as to the actual hours employees work.

The Coverage Budgets module also calculates and measures labor ratios that are important to you, helping ensure optimal labor coverage and efficient labor costs.

Benefit Accruals

Benefit Accruals automate the calculation, validation, and granting of accrued leave time. It improves compliance with corporate policies and union contracts and minimizes an organization's exposure to leave liability and employee grievances. Benefit Accruals also consistently tracks FMLA and other mandated leave policies. Accrual rates and tracking can vary based on job position, seniority, employment status, or hours worked, among other things.
