About

MxE Creative Builders is an up and coming general contracting venture from two well established firms Mox-E Creative Inc. and Drawbridge, offering a turnkey solution to many types of commercial construction projects.

Trey Wagnor, the director of construction at MxE Creative Builders brings over sixteen years of experience to the new division that meets the needs of even the smallest project in this zealous market.

Wagnor has been involved in estimating and managing projects ranging from aquatic facilities, parks, high security clearance areas such as airports and correctional facilities to amphitheatres, medical facilities, multi-family projects, schools, historical remediation, recreation centers and just about everything in between totaling over several hundred million dollars of completed construction projects.

Some recent examples of Trey's accomplishments include but are not limited to:

- Canyon Family Aquatic Center - \$6.37M – Aquatic center including lazy river, competition lap pool, zero entry pool, slide infrastructure and associated piers / footings, concession / restroom, pump house and acrylic surfacing ***Value Engineered***
- Arlington Fire Station No. 17 - \$3.2M – 8,900 SF fire station comprised of structural steel, masonry, composite panels, site parking and access controls.
- Dallas Park Maintenance District 6 Service Center Improvements - \$2.2 M – 7,300 SF P.E.M.B. including salvage and reinstallation of reclaimed lumber, detention pond as well as improvements to existing storage structure ***Value Engineered***
- Denton Regional Fire Safety Training - \$2.2M – 7,400 SF four-story concrete and masonry “burn tower” with fire training equipment and props, outdoor class room with restroom and relocation of existing training buildings ***Value Engineered***
- McKinney Air Hanger MACH #2 - \$1.2M – 10,000 SF P.E.M.B., custom hanger doors, runway approach and underground utilities
- City of Midlothian Senior Center Expansion - \$1.1M - 5,000 SF tilt wall addition to existing senior center, demolition and tie-in of existing building to new with temporary partitions
