Attributes of QuotEnergy Program

- Educate and assist the buyer through supplier evaluation, market analysis, bid comparison, and contract negotiations.
- Alleviate the need for buyer to spend valuable time becoming familiar with a complex and constantly changing industry.
- Create price transparency through formal competitive bid process. Provide an independent and unbiased approach towards supplier choice.
- Oversee and manage account with chosen supplier from meter switch to contract expiration.
- Fees for services are paid by your chosen supplier: Cost of customer acquisition is undertaken by QuotEnergy rather than the supplier's in-house sales force.

QuotEnergy's Commitment to Our Customers

- *Secure the lowest prices and most preferential contract terms for electricity supply*
- *Pre-qualify and negotiate contracts with electricity and natural gas suppliers that are reliable and have the financial and technical resources to support their supply obligations.*
- *Assist our customers in understanding and operating in the constantly changing energy markets to make sure that the services they obtain meet their goals and surpass their objectives.*
