# TestHound

Assessment Coordination

We make it easier.

Plan and coordinate state and local assessments, ensure accuracy of student accommodations, and build a balanced assessment system.

> **I would make budget cuts elsewhere to keep TestHound in my district. It frees up our testing coordinators so their time can be spent on what matters most, our students."**
>
> — Christina Trotter, Director of Student Assessment

Enhanced Student Experience

- Ensure students receive the appropriate test settings and accommodations.
- Create a more inclusive and balanced assessment environment.
- Enable students to demonstrate their learning without unnecessary obstacles.

Streamlined Test Administration

- Centralize all essential information from student information systems, as well as Special Education and English Learner programs.
- Reduce administrative burden for site and testing coordinators.
- Improve workflows for more efficient resource allocation and improved educational planning.

Data-Driven Decision-Making

- Aggregate data from various sources to eliminate data silos.
- Generate comprehensive insights into assessment data and administrative processes.
