Overview

G2 Restoration, LLC has been a full service commercial and residential restoration company since 2016. G2 Restoration has primarily dealt in construction services that have dealt with fire, flood, and mold remediation and rebuild. This however, does not limit the capability of G2 Restoration to the emergency service designation, as the construction elements performed by our company transcend this model. Additionally, G2 Restoration has a full service moving company that deals with customers' contents, which allow for easy transportation to G2 Restoration's secure facility to maintain safety and cleanliness while construction takes place. G2's experience in dealing with this industry will allow for our TIPS customers to be able to receive accurate Xactimate estimates and proposals in a much timelier fashion than what other coops provide. This is a tremendous benefit to the customer to have cooperative buying power that is not restricted by third party delays.

G2 Restoration uses Xactimate pricing to service our customers, which will be a seamless transition in utilizing this TIPS contract. G2 does approximately 50 jobs a month and has an internal staff of 30 people. The ownership of G2 Restoration have been awarded JOC contracts in the past and have existing relationships with many local entities that would serve as an excellent transition to bring new clientele to the TIPS cooperative. Our current website is www.g2waterrestoration.com which details some of the capability and proposed goods and services of our company.

Thank you for your consideration,

G2 Restoration Team
