Overview

Our History:

ArCom Systems, Inc. was founded in 1975 in Little Rock, AR. During the first twenty years of the company's existence, the primary focus was to provide and install fire alarm and nurse call systems in long term healthcare and assisted living facilities throughout the South Central and Southeastern portion of the United States. During this period, ArCom Systems performed work for a select group of developers and installed systems in over 200 facilities in 12 states. In the mid to late 90's, a new leadership team assumed the reigns, initiating commitments with the top best of breed product lines available in the U.S. for I.P. Video Surveillance, Access Control, Nurse Call and Fire Alarm. Since then, ArCom Systems has quickly emerged onto the national scene, having been ranked in SDM Magazine's Top 100 Systems Integrator list for the last 10 years running. ArCom Systems provides full turnkey life-safety, security and communication solutions, and a total system approach through sales, design, project management, installation, inspections, service, and emergency repair. ArCom Systems has Arkansas' most carefully selected, factory trained and NICET certified technicians. In fact, our staff maintains over 165 factory and industry certifications overall, and have developed a reputation in the market as the company that invests, trains and develops their technicians and staff. While many of our competitors may simply train one person to hold the factory certification for a given product, ArCom Systems believes in training and empowering our people at every level within the organization. As a result, our operations staff averages five (5) factory certifications each. We understand the necessity of delivering professional, knowledgeable, certified technicians and staff to your hospital, business, school, university, manufacturing facility or production plant in order to handle your critical life-safety and security needs. Our Purpose: We Safeguard People and Property because your Life and Livelihood Matters. Our Values: We are ONE. One team, in voice and action, driven to deliver the ultimate customer experience. We are HONORABLE. We treat everyone with integrity and respect and hold true to our promises.

We are PASSIONATELY COMMITTED. What we do is a calling: we perform with excellence and celebrate a job well done. We are SOLUTION-FOCUSED. We are proactive, embracing change while providing unparalleled solutions for the safety of our team and clients. We have FUN. Fun is essential, fuels innovation, and enhances creativity.
