Overview

Comprehensive Commercial Roofing Services

Construction project supervisors as well as managers and owners of existing office buildings, military facilities, or other commercial complexes can turn to BELDON® Roofing Company for all of their roofing needs.

When you partner with BELDON® Roofing Company, we will analyze your commercial property and take into account regulatory codes to offer an appropriate roofing solution. Then we'll provide you with a written contract that clearly outlines the goals and expectations of your project, and assign a project manager who will keep you regularly updated as the job progresses. Your commercial roofing project can consist of any of the following services:

Replacement or repair – If your roof is aging and/or showing excessive damage, or if you need a new roof for a commercial property, we can provide a solution. We install single-ply, built-up, and modified bitumen roof systems, so we can cater to a wide range of needs. Or, if there are only minor problem areas in the roof that need to be addressed, we can provide a sustainable repair.

Preventative maintenance – With our RoofExtend™ maintenance program, we conduct bi-annual roof inspections, as required by the manufacturer's warranty. During these inspections, we remove light debris perform preventative maintenance, and provide recommended repairs via reports.

Coating and waterproofing – Enhanced protection against the elements is a key to roof life. We can coat the roof with a waterproof membrane that will act as a protective shield against the elements. Plus, many of our new coating options reflect light, keeping your roof surfaces cooler and helping your building become more energy efficient.

Furthermore, we don't shy away from performing work on complex roofing systems. We have a reputation for taking on labor-intensive, difficult commercial roofing projects, so whether your roof is flat or otherwise, BELDON® Roofing Company has the experience and skills to get the job done right – the first time.

To learn more about how we can help with your commercial roofing project, contact BELDON® Roofing Company today. We're a family-owned, fourth-generation company with a proven track record of success.
