Overview

A2S Furnishing Systems is one of Europe's leading school outfitters. For over 80 years, A2S has been helping schools, pedagogues, and especially children, learn, thrive, and achieve. Our goal, that schools become inspiring places, where both students and teachers are at ease and comfortable, has helped successfully transform educational spaces across Europe, Scandinavia, Russia, the Middle East, China, and North Africa. A2S Furnishing Systems has become "Der Bildungseinrichter" (The Learning Furnisher), with our 3 production German-based environmentally-focused production locations, with 800 dedicated and talented employees. A2S – Der 'Bildungseinrichter' (The Learning Furnisher), our slogan, is our commitment to develop comprehensive learning concepts that help transform schools into spaces where everyone feels comfortable and safe. At A2S, we know that learning is an individual process that works best when students have the ability to co-author their own learning progress independently. Individual learning formats, becoming more popular every day, create ever-changing challenges that make it possible for student to work in peace, in their own way, without losing sight of the overall objective. Today we support our clients from the beginning, starting with dialogue. We learn from you, your goals, and your vision. Quickly, we are then able to translate your vision into photorealistic room concepts. When designing, we pay close attention to zoning, available space, room use, and acoustics. This ensures that classical lecture format, group work, partner work, and even silent work, retreat, and relaxation, are ALL possible, in one learning environment. Over the years A2S Furnishing Systems has developed leading furniture solutions, like our Pagholtz line; an almost indestructible, stunningly beautiful, natural-sourced composite material. Or our Flex Series; a state of the art chair several unique design features, like our 3D spring mechanism for healthy movement and sustained comfort. Our patented Floorsafe glides reduce the risk of slipping, while protecting floors. And our brand new Combi Series, acoustic dividers that create flexible learning zones, can quickly and easily change to create customized educational spaces. At A2S, we support our clients, with over 6.000 meticulously designed and crafted furniture solutions, for nearly every area within a school, from early childhood, to higher education.
