### Overview

*ACT specializes in third-party construction testing, following industry-approved quality control procedures. Our policy ensures impartiality and eliminates conflicts of interest.*

*With over a decade's experience, we excel in air/water barrier, fenestration, and water testing for various project types.*

*When integrated with proper design and construction oversight, testing and verification are crucial. They identify vulnerabilities, confirm compliance, and prevent system failures, mitigating the risk of water intrusion and legal consequences in new constructions.*
