Overview

Arcadia offers an extensive range of products from lounge, modular, executive, conference, bench and guest/tandem seating to conference, meeting and occasional tables.

Manufactured from a variety of wood materials including Maple, Beech, Cherry, Oak and Walnut, Arcadia also features wood, glass and metal combinations throughout its product line.

All seating products are available with a multitude of options to accommodate functional, aesthetic and/or comfort preferences. For executive and guest seating, a selection of arm and base alternatives is standard. Lounge chairs vary in scale and style and can be modified to meet spatial requirements. For modular environments, Arcadia offers light-scaled tandem seating options as well as multi-functional modular lounge units to meet the different needs of space types. Seating products can be upholstered in fabric, vinyl and leathers.

The clean, classic look of Arcadia's product line makes it adaptable to any commercial environment. With our manufacturing flexibility, products can be customized and modified as needed. And, with the ability to match virtually any finish, Arcadia products can be compatible with new and existing products.
