Overview

Linder Consulting, LLC is an Austin-based consulting firm specializing in IT project management and software selections. We serve clients primarily in the K-12 and nonprofit sectors and are committed to helping our clients make the most of their technology investments. We are proud to work in the public and nonprofit space where our services help clients better serve the students, parents, citizens and charities they represent.

We believe that software implementations, while technical in nature, are ultimately about people and process. Our approach reflects this understanding by coupling a structured and proven framework with the flexibility and practicality to meet the unique demands of each project and organization.

Linder Consulting has provided technology project services to clients in Texas, California, New York, Nevada and Kansas. The company was established in 2005 and is a registered HUB in the State of Texas and a certified Women's Business Enterprise (WBE).
