Overview

A SBA certified Economically Disadvantaged Woman-Owned Small Business EDWOSB and a Texas HUB, Bee® was founded in 2009 and has been operating under the Bee® brand for the past 14 years consecutively. Our Founder, Dr. W. Dan Turner, Ph.D., P.E., CBCP®, AEE Hall-of-Fame, led MEP, energy management, data analysis, visualization and reporting, O&M, and commissioning programs for over 50 years. Our staff is a seasoned group with several hundred years of accumulated hands-on field experience in hundreds of buildings across the US and the world. Our core strength is in HVAC and central energy plant systems, building automation controls and overall building performance, and our work has grown into an extensive practice in full-service energy management, building commissioning, TAB, sustainability and resiliency consulting, including Owner's representative, QC Quality Control, and 3rd party independent performance M&V Measurement & Verification services on ESCO ESPC/UESC/PACE projects and programs. Our clients are primarily public entities, such as federal USDA, GSA, VA, FAA, DoD and USACE, State of Texas, Counties, Municipalities, Universities and ISDs, in addition to private organizations. We are not affiliated with any specific brands, vendors or contractors, so the client can always be assured we are looking out for them.

Bee® engineers' innovative total building performance solution energy & water services approach derives out of our 30 years proven track record of building/central plant/campus master planning, metering, feasibility study, energy/water/utilities audit, modeling, technical design review, M&V Measurement & Verification, Cx, TAB, visualization & reporting, trouble-shooting, root-cause analysis, controls optimization, O&M technical support, Retro-Commissioning RCx and Re-Commissioning ReCx, and training, etc., through the life cycles of buildings, facilities and constructions, at Texas A&M University, mission-critical DoD installations nationwide and worldwide, and FAA, USDA, GSA, USACE, and VA campuses and complexes nationwide. Bee® services are data and facts evidence-driven, and performance-oriented, targeting at the fine balance of functionality, operability, reliability, maintainability, efficiency, sustainability and resiliency. It integrates and seamlessly plans/schedules/conducts in-field testing and studies effectively and efficiently with a "Total Responsibility" commitment, ultimately protecting, meeting and exceeding the Owner's interest and benefits.
