Overview

Seating Concepts is an American Manufacturer and Design firm, which specializes in the food service industry. With an extensive background in restaurant, government and educational food court design, Seating Concepts has the knowledge to make any dining facility attractive, cool, yet functional and structured. With the right design, your cafeteria can be an environment where everyone wants to be. A redesigned cafeteria will lead to greater student participation without the hassle of long lunch lines. By creating structure and more accommodating seating, your cafeteria will be manageable but comfortable with a design that will rival any of your student's favorite restaurants. With an extensive background in designing dining room furniture for quick service restaurant, educational environment and military bases. Seating Concepts manufactures quality products that are suitable for heavy-use and food service. Our Interior Designers are experts in choosing finishes that will not only look great but will hold up to the daily wear and tear of student use. In addition to our innovative designs and quality products, Seating Concepts provides exceptional service. We take the complexity of new cafeteria build or remodel and make it an easy but fun experience. When working with Seating Concepts, we will send one of our Interior Designers to your facility to survey the space, meet with your team to discuss your design wants and needs, and then two weeks later you will be provided with a floor plan of your space and a color board illustrating the furniture finish selections for your space. Once everything is approved and your order is ready, we will send one of our install teams out to install all of the furniture for you! All throughout the process you will have a dedicated Customer Service Representative available to you to answer any question you may have. We take pride in providing all-inclusive service that makes the design of a cafeteria a hassle-free and fun experience!
