Overview

NWA3D is an educational 3D printing company based in Fayetteville, Arkansas. Our mission is to make 3D printing easy for everyone, especially educators and students. We accomplish this mission in three unique, valuable ways: 1) We sell reliable, affordable 3D printers that are easy to use, rugged, and stand up to the rigors of the classroom environment, 2) We provide unlimited videoconference training by teachers and engineers to give teachers and their students everything they need to get started, operate, maintain, and troubleshoot our 3D printers, and 3) We provide lifetime support, including education curriculum development and a no-questions-asked one-year warranty that covers everything mechanical or user related.
