Overview

PinPoint, a division of RF Technologies, Inc. Our team has developed a cutting-edge LORA based HELP ALERT Emergency Notification system (<https://www.rft.com/help-alert/>), which we believe can significantly enhance your district's emergency preparedness. What sets our product apart from others in the market is its unique approach to communication. Our HELP ALERT system operates on a separate, secure LORA network independent of your schools' infrastructure. This means we do not cause unnecessary network traffic or rely on your existing WIFI access points. Even in situations where your network might be experiencing issues or the power is out, our system continues to function, ensuring reliable communication during critical moments.
