Overview

Empower Parents – Save Teachers Time – Save Money

ZUNI is an online digital networking and collaborative platform designed to ignite learning movements so everyone can be inspired to dream, learn, grow, and do together. ZUNI is prepopulated with over 100,000 vetted free and open educational resources (OERs) for literacy, math, science, social studies, coding, holidays, financial literacy, STEM, career exploration, and more. ZUNI can be customized to include district, school, and teacher resources as well. It is fully integrated with Google Classroom and the Google suite of educational apps and with Microsoft Apps for education.

ZUNI has both an admin/teacher and a student/family interface. With the admin/educator interface, teachers can find resources they need in 3 clicks instead of spending 3 hours searching the internet. The collaboration features allow teachers to comment, use a 5-star rating/review tool on individual pieces of content. In addition, they can collaborate with students on content allowing students to have the means to share their opinion on if/how a resource is impacting their learning.

The student/family interface is packed with resources and tools to both support instruction and inspire the love of learning in the home. Families can snuggle up to audio-eBooks with their children or play financial literacy games. Students love logging into ZUNI to keep up with widgets like the Wonder of the day through Wonderopolis, or the quote and jokes of the day. The News corner allows teachers to have a place to share classroom news through their custom News widgets. Each newsletter can be translated right in ZUNI.
