### **Overview**

*Vista School Resources, Inc. is the publisher of the IDEAS for College and Career Readiness Plans program - with teaching aids, lessons, and a student book. This unique program supports students by building the foundation for college and career readiness. Designed for middle school and early high schoolers, they discover for themselves how to proceed through the College and Career Readiness Continuum. Students are empowered with strategies to promote the development of academic behaviors, or key learning skills. The program also helps them to make goals through the process of explorations, reflections, and journaling. The contextual skills and self-awareness activities support their transition to postsecondary education. The student book is the individualized component for planning a successful secondary education experience and beyond. The program supports the use of online resources. The Facilitator guide provides turn-key lessons embedded with collaborative discussions, interactive activities, writing and research prompts, and social-emotional practice lessons. English language support and strategies are embedded in the lessons.*
