Overview

RTI Scheduler is a software as a service (SaaS) specializing in flexible student scheduling for educational institutions. RTI Scheduler provides logistics and management tools for RTI/Flex periods where students may be changing locations multiple times in a week.

Schools can create customized schedules to fit their unique plan. RTI Scheduler saves time by quickly assigning students into needed interventions and allows student choice through self-enrollment into open sessions.

RTI Scheduler improves efficiency by automating notifications to remind students of session sign-ups and details of their assigned RTI/Flex sessions. Teachers know what's happening in every session, every day with intuitive tools and reports.

Teachers can take attendance, providing confidence that students are attending needed sessions. Schools can document student progress with detailed reports containing information on all past RTI/Flex sessions.
