Overview

Concord Commercial Services, Inc. provides many professional trade skills much like a general contractor. Although we strive for new construction of facilities, we also aim for the preventive maintenance, daily upkeep, and planned improvements of existing facilities. CCS strives to perform each service task in a professional manner to ensure a final quality product while working within the restraints of each individual facility. Our business model is primarily focused on offering the greatest service for our clients. That is why we have hired a full and diverse staff of tradesmen to ensure consistent quality and a wide range of offerings. Our service department has done it all and always willing to step up to meet any challenge or opportunity.
