### Overview

*TMCS is a company organized to offer innovative, state-of-the art, technological solutions in the delivery of PPE Supplies for the safety and concern for our fellow citizenry within the United States. TMCS's team manufactures high quality products in a safety-first environment. TMCS is experiencing tremendous growth due to its quality of service and excellent PPE supplies. TMCS is focused on providing PPE supplies, by teaming up with educational institutions and others, while we take pride in assisting educational institutions because they are the stewards of human development. Knowing this, it will be an Honor and privilege to serve teachers, maintenance, administrators, security, nurses and all other great stewards within this industry. We realize PPE is a small part of what educational institutions provide, but if our resources can create a safer environment then our organization can feel the same pride when a student crosses that stage for graduation.*
