Overview

NextEra Energy Solutions, LLC, has a 26-year history of developing energy efficiency and facility improvement solutions for schools, counties, municipalities, state, and federal customers. Our collaborative and sustainable solutions are designed to improve system efficiency, increase occupant comfort, and reduce operational costs for the life of customer buildings and systems. Our approach evaluates each energy conservation measure (ECM) for economic viability and operational impacts. It includes traditional (HVAC and lighting) and non-traditional (renewable) ECMs. This, combined with our vendor neutrality, ensures our customers receive the best technical solution to maximize the benefits of the Energy Performance Contracting process.
