Overview

he X-Chair molds to the shape of the user's body. 10 ergonomic adjustments make this glove-like fit possible & a seat with adjustable height and depth; a height-adjustable backrest; a headrest with adjustable height and angle; 4-dimensional armrests with adjustable height, width, depth and angle; adjustable tilt tension; and a tilt lock. Yet the X-Chair's greatest ergonomic feat is one that needs no adjusting. The proprietary Dynamic Variable Lumbar (DVL) Support adjusts itself to the use's shape in order to provide perfect lumbar support from the moment they hit the seat.
