Overview

Content360° Powered by OnBase ("PBO") Document Management, Electronic Forms and Workflow in K-12 School Districts

K-12 school districts struggle with managing paper and paper-based processes. One of the struggles faced by these organizations is creation, adoption and adherence to a cohesive and comprehensive records management process. Harvest Technology Group and Content360° PBO, the integrated document management solution for K-12 school districts, can help.

Harvest Technology Group has assisted K-12 school districts with going paperless since 1999. During this time, we have helped hundreds of K-12 school districts recognize the value of removing paper from their information flow processes. Going paperless is often the first step in implementing a compliant records management procedure.
