Overview

Performance Scoring is a web-based performance engagement platform designed for school districts.

Tailored specifically for each role at the district, campus, and classroom level, Performance Scoring is designed to engage

staff and students while giving them a voice and a clear path to grow and succeed.

The application provides information to the right people at the right time by using a role-specific dashboard view that allows users to quickly

determine where more attention is needed, and which areas are performing well.
