### **Overview**

*Apptegy provides custom websites, mobile apps, a notification system, and our publishing platform to school districts across the country.*

*Our publishing platform, Thrillshare, was designed to accommodate communication channels of a school district. Even though most vendors are now able to address several of these areas, it's apparent in the user experience that various platforms were puzzled together. Thrillshare allows you to update all of your Facebook and Twitter pages, your website and app, send a push notification, and send a text message and voice call—all with one click on the same screen—or even from your smartphone.*
