Overview

Avaya IP Office Platform

Transform the way you conduct business. Create a seamless engagement experience for your customers and employees regardless of their locations, devices, or applications. Now, you can have telephone, messaging, conferencing, contact center, video, and unified communications—all in a flexible platform from Avaya that easily and affordably scales as your communications needs change. Starting with as few as five users, Avaya IP Office easily scales to 3,000 users at a single site or in up to 150 locations. Enable your mobile workforce to collaborate, and promote commerce any place, any time, and on any device. True plug and play reduces IT overhead, effortlessly rolling out applications to your staff. WebRTC applications provide click-to-call capabilities from Google for Work, Salesforce.com, and Microsoft Office 365. And, rely on Avaya support services to optimize your solution's performance, maximize system uptime, and protect your investment in Avaya technology.

Structured Cabling

Offering cabling design, installation and management solutions. Media solutions include coax, fiber optics and twisted pair. Our team of professionals can properly administer cabling specifications in numerous environments.
